

Proper fitting is key to the function and benefits of diabetic/therapeutic shoes. Matching the right shoe to a patient's foot type is just as important to a proper fit as taking correct foot measurements.

Use this Selection Chart during the fitting process, in conjunction with the foot measurements, to determine the best shoe for a patient's particular foot structure.

Relano® Diabetic Shoe Selection Chart			DIABETES	BUNIONS	HAMMERTOES	ARTHRITIS	EDEMA (SWELLING)	SLIM/NARROW FEET	EXTRA WIDE FEET	PES CAVUS (HIGH ARCH)	PES PLANUS (FLAT FOOT)
